## FURTHER INFORMATION

### PRACTICAL ACTIVITIES

Training in the School of Specialization in Plastic and Reconstructive Surgery at the University of Insubria and subsequent experiences in national and international environments, especially in Spain (Valencia).

This development took the form of attendance at surgery as assistant surgeon and/or surgical practitioner in the infirmary and clinic.

Daily activities as a surgeon in plastic and reconstructive surgery and aesthetic medicine.

### SCIENTIFIC ACTIVITIES

From September 1995 to September 1997, attended the Institute of Human Morphology (Director: Prof. C. Dell'Orbo) at the faculty of medicine and surgery at the University of Pavia, Varese. Embriology, histology and human anatomy tutor at the above-mentioned institute during the academic years 1995/96, 1996/97, 1997/98. Researcher in mechanisms of tissue mineralization.

Later, while specializing in plastic surgery at the University of Insubria, undertook research studies based on animal testing, with research in this field leading to publications of interest on the hemodynamics of microchirurgical flaps with focus on the role played by the presence of valves in the circulatory system. Thanks to the interest in the study of anatomy as applied to surgery, have participated in interesting research projects, published in scientific magazines of international importance, about the anatomy as the subject of anterolateral thigh transplantation and fasciocutaneous transplantation based on the perforating arteries of the medial sural artery, the research being conducted at the Human Anatomy Institute of the L. Maximilian University in Munich.

From July 2009 to July 2018: **Medical liability for surgery in the VCA (Vascularized Composite tissue Allotransplantation) program of the Cavadas clinic; Transplantation, particularly facial, upper and lower limb tissue.**

### ASSOCIATE EDITOR

International Journal of Orthoplastic Surgery - IJOPS

### MEMBER OF EDITORIAL BOARD

Plastic and Reconstructive Surgery-Global Open (PRS-Global Open)

**REVIEWER** for international journals:

- Plastic Reconstructive Surgery (PRS)
- Journal of Hand Surgery (American Edition)
- Journal of Hand Surgery (European Edition)
- Journal of Plastic Reconstructive and Aesthetic Surgery (JPRAS)

### TEACHING ACTIVITIES

In November 2000, was named nominated third commissioner on the examination board for the integrated course on venereal and skin diseases and plastic surgery featured in the medical and surgical degree

programs of the University of Insubria. (Holder of the course: Dr. Luigi Valdatta, FACS).

On 26 February 2008, the specialization department of MEBEKO, medical professions commission of the **Swiss Confederation**, recognized Dr. Thione's medical diploma and qualification, assigning him the **federal title of Surgeon Specialized in Plastic and Reconstructive Surgery and Cosmetic Surgery**; said title is recognized in Switzerland and is equivalent to recognized Swiss qualification; Dr. Thione is therefore legally entitled to autonomously exercise the profession of medical specialist throughout Switzerland.

**Since September 2008, has been a member of the Federation of Helvetian Doctors (FMH) and of the Guild of Doctors of Canton Ticino (OMCT) as a specialist in Plastic and Reconstructive surgery and Cosmetic Surgery.**

In February 2010, was awarded the **title of Surgeon and specialist in Plastic and Reconstructive Surgery and Cosmetic Surgery by the Spanish Ministry of Health** and was listed in the **Guild of Doctors of Valencia with membership ID 464621959**, enabling him to exercise his profession in the Spanish territory.

## ATTACHMENTS

### THESIS

Endocrine and metabolic effects of liposuction (preliminary data).

### GRADUATE THESIS

Fasciocutaneous transplantation based on the perforating arteries of the medial sural artery: preoperative planning and surgical technique.

### DOCTORAL THESIS

Anatomical study of the perforating vessels of the cutaneous surface in the human body.
